PRESENTATIONS:

THE AFTERMATH OF TAX REFORM FOR THE BIOTECH INDUSTRY AND INVESTORS

PRESENTED BY JAIME REICHARDT

CHAIR OF THE SILLS CUMMIS & GROSS STATE AND LOCAL TAX PRACTICE

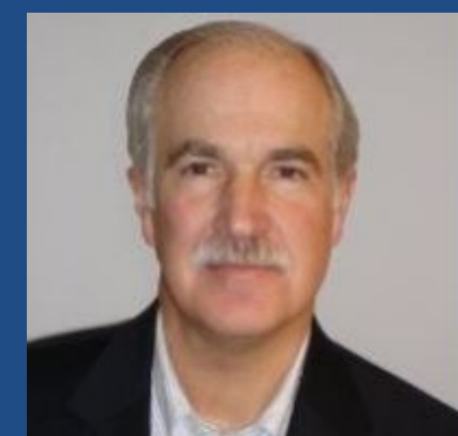

In this seminar, participants will learn about federal and state tax opportunities and key issues that affect the industry and those looking to invest in early stage companies. Participants will hear a summary of some of the key tax changes at the federal level, as well as different developments at the state and local levels, with a focus on Pennsylvania and New Jersey. The session will also provide an overview of different tax incentives that may be available as well, such as tax credits, grants, or exemptions.

DARKMATTER2BD

PRESENTED BY VINCE DECHELLIS

CO-FOUNDER & PRINCIPAL AT DARKMATTER2BD

Gain a better understanding of how medical claims and relationship data can improve targeting for clinical trials. See how the use of business Intelligence software can be used to visualize and distill patient and provider populations to meet trial needs.

DarkMatter2bd is a healthcare data provider established to deliver tailored, high value business intelligence for large and small life sciences companies.

DarkMatter2bd is staffed by experienced industry personnel with a wide range of skills used to address the challenges of today's complex data landscape and business needs.
